

Oxford Research Encyclopedias

Current, trustworthy research, read in 30 minutes or less

There's a lot of information, and misinformation, out there – more than we've ever had access to before. To meet this challenge, Oxford University Press has invested in the Oxford Research Encyclopedias (OREs), a resource that provides collections of in-depth, up-to-date trustworthy research on an ever-growing range of topics. Within the OREs, you'll find world-class experts who give you an overview of a subject that you can understand in half an hour of reading or less.

Developed in close consultation with librarians and university faculty around the globe, the Oxford Research Encyclopedias are written for anyone wishing to expand their knowledge. Whether you are a student just starting out in your studies, a researcher needing background on a related field, or you just want to understand a topic, the OREs are an insightful resource.

SEARCH & DISCOVER

- Search within each subject, each subfield, or across all ORE content
- Browse content by subject or by subfield from each ORE's product homepage
- Filter by article type, availability, subject, or add additional search terms
- Sort results by relevance, title, author/ editor name, or publication date

SHARING & PERSONALISATION TOOLS

- Share content with the ability to print or email search results
- Export entries to citation software
- Save research journeys and content for future reference

SUBSCRIBER SERVICES

Digital resources from Oxford University Press offer a range of key features free of charge to support usage within libraries. Depending on the resource, these include MARC records, COUNTER compliant usage statistics, OpenURL compliance, remote access, and technical support.

The screenshot displays the Oxford Research Encyclopedias interface. At the top, there's a navigation bar with 'OXFORD RESEARCH ENCYCLOPEDIAS' and links for 'About', 'Recently Published', 'Guided Tour', 'Subscriber Services', and 'Contact Us'. Below this is a search bar with 'RELIGION' entered and a search button. A 'Browse by Subject' dropdown menu is open, showing various categories like 'African Religions', 'Global Perspectives on Religion', 'Literary and Textual Studies', and 'Religion and Politics'. The main content area shows search results for 'RELIGION', with a message: 'You are looking at 1-10 of 145 articles for: All: revolution'. Two articles are visible: 'Martin Luther in Karl Marx' by Paul R. Hinlicky and 'U.S. Protestant Foreign Missions after World War II' by David C. Kirkpatrick. The interface includes filters for 'Narrow Your Choices', 'Article Type', and 'By Availability'.
